

CERAMIC BRILL T14

Brilliant agent for vibromachine

Application on all metals such as:
GOLD AND SILVER

Technical features

- Concentrated soap for vibromachine with ceramics, suitable for all types of metals, especially gold and silver
- Excellent lustering action on all metal, especially on gold and silver
- Long durance brilliance effect
- Excellent protective action to treated metals, with high protection barrier for gold and silver
- High active concentration that allows to work at concentrations 0,5/1,0%
- Easy rinsing

Physico-Chemical data

- Physical state: LIQUID
- Color: YELLOW
- Odour: TYPICAL LIGHT
- Density: 1.040 Gr/ml
- Ph sol.3%: 7
- Solubility in water: TOTAL
