

FLOCCULANTE T52

Coagulation liquid

Suitable for treatment of industrial wastewater

Technical features

- Concentrated liquid coagulant for clarification of industrial wastewater
- Excellent action on metals and surfactants
- High concentration that allows to work in the range 0,1/0,5%
- Excellent transparency of the treated wastewater
- We suggest to combine this product with activated carbon and with Flocculante T53

Physico-Chemical data

- Physical state: VISCOUS LIQUID
- Color: YELLOW
- Odor: TYPICAL LIGHT
- Density: 1.22 g/ml
- pH sol.3%: 3,5
- Solubility in water: TOTAL
